

California Clinical Data Project – CALINX Endorsing and Implementing Organizations

The California Clinical Data Project, also known as CALINX, is a collaborative of industry stakeholders to develop and implement laboratory and pharmacy data standards throughout California to facilitate data integration into clinical information systems. Many organizations have endorsed the CALINX Standards, and several are in process of or have completed implementing the CALINX Standards.

Implementation Status

CALINX pharmacy and laboratory standards have been endorsed by numerous provider organizations, labs, hospitals, and commercial and Medi-Cal health plans. The current list of organizations that endorse the CALINX standards are noted below. Organizations interested in receiving lab or pharmacy data from them should inquire directly with the endorsing organization.

The CALINX pharmacy and/or lab standards have been implemented by many organizations. A current list of organizations implementing CALINX Standards are noted within this document

Organizations Endorsing CALINX Standards
