MUHIT – Set Up Step 2

Measurement Year 2011 P4P Meaningful Use of Health Information Technology

1. Please indicate how you plan to report your performance on each MUHIT measure.

- Number of PCPs who meet the intent of the measure
- Number of patients assigned to PCPs who meet the intent of the measure
- Response may vary by measure

If you submit results based on the number of PCPs, input the total number of PCPs for your PO (item 2)

2. Please report your total number of PCPs.

100

If you submit results based on the number of patients assigned to PCPs, input the total commercial HMO/POS population for your PO (item 3)

3. Please report your total commercial HMO/POS population.

If your response varies by measure, populate both items 2 and 3

0% 100%

MUHIT

- If you indicated that you will submit results based on the number of PCPs, three questions will display
- Populate 1A and skip 1B to report performance only on ONC-ATCB certified software
- Populate 1B and skip 1A to report performance only on NON ONC-ATCB certified software
- Populate 1A and 1B to report performance on both ONC-ATCB certified and non ONC-ATCB certified
- Six measures have exclusions, populate exclusion information when necessary and remember to also exclude those PCPs from your response in 1A and/or 1B

Measure 1: Use computerized provider order entry (CPOE) for medication orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local and professional guidelines.

Objective: The organization's Primary Care Physicians (PCPs) use CPOE for medication orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local and professional guidelines.

Measure: More than 30 percent of all unique patients with at least one medication in their medication list seen by the organization's PCPs have at least one medication order entered using CPOE.

Exclusion: Any PCP who writes fewer than 100 prescriptions during the reporting period.

Scoring: Scoring is determined by the percent of the organization's PCPs or PCPs serving a percentage of the organization's commercial HMO/POS members, who are able to meet the intent of the measure.

1A. Number of PCPs who who meet the intent of the measure using ONC-ATCB certified software for this measure.

1B. Number of PCPs who meet the intent of the measure NOT using ONC-ATCB certified software for this measure.

Exclusion: Enter the number of PCPs who write fewer than 100 prescriptions during the reporting period. They should also be excluded from the number entered in 1A and/or 1B.

1C. Do you attest to the accuracy of your response and the availability of supporting documentation for audit review?

Yes

No

MUHIT

- If you indicated that you will submit results based on the number of commercial HMO/POS patients assigned to PCPs, three questions will display
- Populate 1A and skip 1B to report performance only on ONC-ATCB certified software
- Populate 1B and skip 1A to report performance only on NON ONC-ATCB certified software
- Populate 1A and 1B to report performance on both ONC-ATCB certified and non ONC-ATCB certified
- Six measures have exclusions, populate exclusion information when necessary and remember to also exclude those PCPs from your response in 1A and/or 1B

Measure 1: Use computerized provider order entry (CPOE) for medication orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local and professional guidelines.

Objective: The organization's Primary Care Physicians (PCPs) use CPOE for medication orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local and professional guidelines.

Measure: More than 30 percent of all unique patients with at least one medication in their medication list seen by the organization's PCPs have at least one medication order entered using CPOE.

1C. Do you attest to the accuracy of your response and the availability of supporting documentation for audit review?

Yes

No

MUHIT

- If you indicated that you may report performance at a PCP level or at a patient level differently for each measure, five questions will display
- For each measure, report either at the PCP level or patient level
- As indicated on previous slides, you may choose to report performance on ONC-ATCB certified software, non ONC-ATCB certified software, or both
- Six measures have exclusions, populate exclusion information when necessary and remember to also exclude those PCPs from your response in 1A and/or 1B

1A. Number of PCPs who who meet the intent of the measure using ONC-ATCB certified software for this measure.

1A. Number of patients assigned to PCPs who meet the intent of the measure using ONC-ATCB certified software for this measure.

1B. Number of PCPs who meet the intent of the measure NOT using ONC-ATCB certified software for this measure.

1B. Number of patients assigned to PCPs who meet the intent of the measure NOT using ONC-ATCB certified software for this measure.

Exclusion: Enter the number of PCPs who write fewer than 100 prescriptions during the reporting period. They should also be excluded from the number entered in 1A and/or 1B.

Exclusion: Enter the number patients assigned to PCPs who write fewer than 100 prescriptions during the reporting period. They should also be excluded from the number entered in 1A and/or 1B.

1C. Do you attest to the accuracy of your response and the availability of supporting documentation for audit review?

- Yes
 No

MUHIT

Example:

- Reporting results for some measures based on the number of PCPs, and some measures based on the number of patients assigned to PCPs
 - Measure 1 – reporting based on the number of PCPs
 - Report performance using certified software, non-certified software, report exclusions as necessary, and attestation

1A. Number of PCPs who who meet the intent of the measure using ONC-ATCB certified software for this measure.

1A. Number of patients assigned to PCPs who meet the intent of the measure using ONC-ATCB certified software for this measure.

1B. Number of PCPs who meet the intent of the measure NOT using ONC-ATCB certified software for this measure.

1B. Number of patients assigned to PCPs who meet the intent of the measure NOT using ONC-ATCB certified software for this measure.

Exclusion: Enter the number of PCPs who write fewer than 100 prescriptions during the reporting period. They should also be excluded from the number entered in 1A and/or 1B.

Exclusion: Enter the number patients assigned to PCPs who write fewer than 100 prescriptions during the reporting period. They should also be excluded from the number entered in 1A and/or 1B.

1C. Do you attest to the accuracy of your response and the availability of supporting documentation for audit review?

- 
- Yes
 No

MUHIT

Example:

- Reporting results for some measures based on the number of PCPs, and some measures based on the number of patients assigned to PCPs
 - Measure 1 – reporting based on the number of patients assigned to PCPs
 - Report performance using certified software, non-certified software, report exclusions as necessary, and attestation

1A. Number of PCPs who who meet the intent of the measure using ONC-ATCB certified software for this measure.

1A. Number of patients assigned to PCPs who meet the intent of the measure using ONC-ATCB certified software for this measure.

1B. Number of PCPs who meet the intent of the measure NOT using ONC-ATCB certified software for this measure.

1B. Number of patients assigned to PCPs who meet the intent of the measure NOT using ONC-ATCB certified software for this measure.

Exclusion: Enter the number of PCPs who write fewer than 100 prescriptions during the reporting period. They should also be excluded from the number entered in 1A and/or 1B.

Exclusion: Enter the number patients assigned to PCPs who write fewer than 100 prescriptions during the reporting period. They should also be excluded from the number entered in 1A and/or 1B.
